Did you know that Keyboard music lessons can improve your child’s school results?

Keyboard music is the best form of mental training. Through systematic development of eye-mind-hand coordination, it teaches children to think about, cope with and do several things at once thereby dramatically enhancing their learning and concentration skills - in a FUN learning environment.

Half an hour per week is all it takes to achieve these results! And because our lessons are held at school during the school day (carefully planned around the school’s timetable to avoid clashes with core/specialist subjects), you don’t even have to drive your child to or from lessons!

For more information on how your child can benefit from our keyboard music lessons, please visit our web site at www.primarymusicinstitute.com.au or call us on 1300 764 877.

About The Lessons

These are Group Lessons @ $10.90 per lesson ($9.90 if enrol 3 kids).* The lessons last for 30 minutes and are for 4-5 students.

(Sometimes, it is only possible to make up a group of 2-3 students. In this case lessons are 20 minutes as the teacher can cover the same material in less time due to the smaller group size).
