- Device specifications and prices may change at any time. You will be notified of any changes.
- Insurance 'may' not be viable past 3 years due to the Education Departments depreciated insurance structure. Only 3 Years has been quoted for. Insurance on devices will depreciate at 25% per year after the first year, and insurance claims made later within the devices life will have a lower refund. A \$250 excess applies to each insurance claim.
- Devices are purchased 'tax free' through the school. A FINAL residual payment is legally required when the device leaves the school. All devices get factory reset, and therefore it is the responsibility of the end user to back up any files. Devices not returned for factory resetting 'may' incur extra charges, including courier fees.
- BYOM MacBook's cannot be insured through the school. The school's maximum insurance excess amount is \$250 for new devices.
- AppleCare PLUS (previously base AppleCare) is now included with all new education MacBook's, and come with a maximum of two accidental damage claims through the warranty period. AppleCare PLUS does not cover for loss or theft. An excess fee (calculated on damage type) is required for devices claiming through AppleCare PLUS.
- Insurance claims will be assessed for the best option at time of damage, either AppleCare PLUS or Insurance. Excess amounts and claim refunds may vary depending on what damage has occurred. For example, it may be cheaper to claim AppleCare PLUS for a damaged screen than go through insurance.
